Also, tables are available for easy reference to various conversions as you see fit.. Both of these locations observe Daylight Saving Time, therefore there is a period of each year from March until November where the clocks are moved forward an hour.. The Eastern zone is one hour ahead of the Central zone Here's an example for you:If it's 5:00 P.. The following countries are within this time zone: Bahamas, Canada, Haiti, Jamaica, Cayman Islands, Mexico, Panama, Turks and Caicos Islands, and of course the United States.

The eastern portion of the United States uses it, along with EDT during the summer months which is subsequently written as UTC: -4:00.. When converting between these two zones, it's best to remember that these two time zones are adjacent to one another, meaning they are exactly an hour off from each other.. With a population of over 8 million people, this is one of the most well-known and important cities in the world.. This zone is five hours behind from Universal Coordinated Time It is written as UTC -5:00..
